WHAT TO EXPECT

Campaign performance depends on timing, traction, and story. Here's what typical campaigns see:

- **Open Rate:** 15–25%
- **Click-Through Rate:** 1.5–4%
- **Conversion Rate (to crowdfunding landing page):** 2–6% of total sends
- **Result:** A well-timed campaign with momentum can yield up to a few dozen new investors from one blast, and significantly more with multi-email sequences.

Best results occur when your campaign is already live on platforms like WeFunder and has raised at least 25–50% of its target — allowing us to amplify momentum and build investor confidence.
